

WOULD YOU LIKE A CAREER...

...that's focused on sharing information about products and services?

Careers in marketing include creative design, account management, product marketing, and management-level marketing careers. Sales positions include business development managers, sales managers, customer service personnel, sales support, and management. At Spekciton™, our products and services relate to helping our planet by improving the health of plants, water and soils.

Job Outlook

Positions in marketing and sales will continue to be in demand because these occupations remain critical in building and maintaining customer bases for businesses. In addition to marketing and sales reps, we also employ engineers, scientists, agronomists, and those with skills in finance.

Education

Educational requirements vary depending on the products sold. For scientific or technical products, sales representatives typically Bachelor of Science or Bachelor of Arts degree.

Expected Salary Range

\$55,000 - \$105,000 per year
