

Joe Iannone is currently a Senior Manager of Process Engineering at Bloom Energy in Newark, DE, where he focuses on implementing the lean culture while scaling up and starting up new processes. He works with all levels of the organization, from technicians on the floor through executive management, to find and eliminate waste throughout the entire value stream. Joe started with Bloom over 8 years ago as part of the Delaware plant startup team and has helped start up the three additional facilities that Bloom currently operates in the state.

Joe has over 20 years manufacturing experience working in various engineering roles in the automotive, chemical, consumer goods, and energy industries. He has a BS in Chemical Engineering and a minor in Chemistry from The Pennsylvania State University as well as an MBA with a concentration in Entrepreneurship from The University of New Hampshire.
