

STEM Career Profile Jumpstarter

We invite you to share information regarding STEM careers within your organization for teachers to share with their middle and high school students. The goal is to help students learn the value of STEM skills in the real world – and how exciting these careers can be.

The profiles will be highlighted in our communications throughout the Delaware Educational System, as well as on our website where teachers will be able to access useful information about careers and jobs in Delaware, including those now addressing the pandemic crisis.

To get started, here's what we need:

1. Career/Job title and brief description
2. Education required
3. Job Outlook
4. Salary Range
5. Classes to take in middle and high school in order to get a head start
6. Optional: Skill Builders

Profiles can include company branding. See example profiles on our website at <http://dfsme.org/stem-career-profiles2/>.

We're here to help if you would like any assistance! Please feel free to call me with any questions or further information.

Thank you,
Randy
