

How to find our entrance?

When you turn onto Discovery Blvd, make the first right (you will see the **ChristianaCare Urgent care**), continue around the building and you will see the **UD** sign on the building when you have arrived.

Please walk through the double doors with **550** written on them, continue straight until you see the **Learning Lab** windows on your right and walk around to head into the classroom. (In the photo above, the blue arrow points to our doors)

Where can you park?

The University of Delaware monitors our parking; we strongly encourage carpooling due to limited available visitor spots.

If a ticket is received, we will do our best to dispute it. In the case we are not capable of resolving the ticket, it will be the responsibility of the driver/school.

Cars – Please ONLY Park in designated visitors in the front of the doors. If all spots are full, please find additional visitor parking (see map).

Buses – please drop students and chaperones off at the double doors. If buses are staying, they can double park in the back of the lot in front of our entrance or over one section to the right
